Management report

The Legal Status and Objectives of the Guarantee Fund

The Guarantee Fund (hereinafter referred to as "Fund") is a lawfully founded legal person in public law that was formed on 1 July 2002 in the place of the Deposit Guarantee Fund, which had operated since 1998. The Guarantee Fund Act that entered into force on 1 July 2002 provides for the objective, the legal status and the basis and procedure for the activities of the Guarantee Fund.

The objective of the Fund is to guarantee protection of funds deposited and invested by clients of credit and investment institutions, unit-holders of mandatory pension funds and policyholders which have entered into an insurance contract for a mandatory funded pension. The activities of the Guarantee Fund have been directed towards the establishment and operation of administration mechanisms for guarantee schemes of the integrated and effective financial sector, which allows the risks of the state to be significantly decreased upon guaranteeing the indirect liabilities in the financial sector as well as the risks of the small depositors and small investors increasing thereby the reliability and stability of the financial sector. The Guarantee Fund manages four guarantee schemes, sectoral funds – the Deposit Guarantee Sectoral Fund, Investor Protection Sectoral Fund, Pension Protection Sectoral Fund and Pension Contracts Sectoral Fund.

In order to achieve its objectives, the Fund:

1. Collects single and quarterly contributions from the fund participants;
2. Compensates, under the conditions, to the extent and in accordance with the procedure laid down in the Guarantee Fund Act, for the deposits and investments placed with the fund participants as well as for any damage caused by the fund participants to the unit- holders of mandatory pension funds;
3. Supports, under the conditions and to the extent provided by the Guarantee Fund Act, the transfer of insurance portfolio from one insurer to another one, ensuring thus that a policyholder receives periodic payments of insurance contracts for a mandatory funded pension;
4. Performs other tasks arising from the Guarantee Fund Act.

Management and Personnel of the Fund

The highest directing body of the Fund is the Supervisory Board of the Fund. The Supervisory Board consists of nine members appointed by the *Riigikogu* (the Parliament of the Republic of Estonia), the Government of the Republic, the Governor of Eesti Pank (the central bank of Estonia), the Financial Supervision Authority, the Estonian Banking Association and by organisations representing the investment institutions, pension management companies and insurers.

The members of the Supervisory Board were changed twice during 2013. On 22 March 2013 the Estonian Fund Managers Association, as the organisation representing the pension management companies, accepted the resignation statement of Ege Metsandi and appointed Silja Saar as a member of the Supervisory Board of the Guarantee Fund on 15 April 2013. On 18 December 2013 the Estonian Banking Association and Estonian Fund Managers Association, as the organisations representing the investment institutions, jointly accepted the resignation statement of Kristel Kivinurm-Priisalm and appointed Meelis Hint as a member of the Supervisory Board of the Guarantee Fund on 6 January 2014. By the Resolution of the Financial Supervision Authority's Management Board from 22 January 2014 Kilvar Kessler, Chairman of the Management Board of the Financial Supervision Authority, was appointed as a member of the Supervisory Board

of the Guarantee Fund and Raul Malmstein was removed. The 4-year term of authority of the Supervisory Board of the Guarantee Fund which started from November 2010 will expire in November 2014.

The Fund is managed and represented by the Director, who is subordinate and reports to the Supervisory Board. The term of authority of the Director is 3 years. The term of authority of the Director will expire in October 2014.

In 2013 the supervisory board of the Guarantee Fund met six times. The most important agenda items of the meetings have included assessment of the suitability of the rates of the quarterly contributions of the sectoral funds and, where necessary, establishment of new rates and amendment of restrictions on investment of the assets of the Fund. In addition, the Supervisory Board has discussed issues concerning the day-to-day work of the Fund such as approval of the budget and annual report. The economic results of the Fund are communicated by the director to the Supervisory Board on a quarterly basis.

During the reporting period the Fund employed two employees, in addition to the director. The number of the Supervisory Board members of the Fund was nine. The remuneration expenses amounted to EUR 94,511 in total in 2013, incl. the remuneration of the director of the Guarantee Fund in the amount of EUR 34,585 and the remuneration of the members of the Supervisory Board in the amount of EUR 30,409 without of accounted social tax. In 2012 the remuneration expenses amounted to EUR 86,269 in total, whereby the remuneration paid to the director and to the members of the Supervisory Board amounted to EUR 34,581 and EUR 27,854, respectively.

Maximum amounts of compensation for guaranteed deposits and investments and for damage caused to the unit-holders of mandatory pension funds and the extent of supporting the transfer of insurance contracts portfolio for a mandatory funded pension

Under the directives of the European Union, deposits have to be guaranteed to the extent of 100,000 euros and investments at least to the extent of 20,000 euros. These compensation limits have been established by the Guarantee Fund Act.

As of 1 January 2011 deposits are compensated to entitled persons 100%, but not more than to the extent of 100,000 euros, which is in accordance with the amendments of the Directive of the European Union on deposit guarantee schemes which entered into force in the beginning of 2009.

Investments are compensated 100%, but not more than to the extent of 20,000 euros, which is in accordance with the Directive of the European Union on investment guarantee schemes.

According to the Guarantee Fund Act, the damage to be compensated from the Pension Protection Sectoral Fund in the amount of up to 10 000 euros per a particular loss event shall be compensated for in full to the unit-holder. Any damage exceeding 10 000 euros per a particular loss event of a unit-holder shall be compensated for to the extent of 90%.

According to the Guarantee Fund Act the supporting of an insurer ensures that a policyholder receives periodic payments of insurance contracts for a mandatory funded pension in full to the extent of monthly funded pension payments up to the national pension rate¹ established on the basis of the State Pension Insurance Act. The amount of

¹ Since 01.04.2013 the national pension rate is 140,81 euro.

monthly funded pension payments which exceeds the national pension rate shall be guaranteed for to the extent of 90%.

Collection of contributions from fund participants

In order to achieve its objective, the Fund collects single and quarterly contributions from credit institutions, investment institutions and management companies of mandatory pension funds and insurers entered into an insurance contract for a mandatory funded pension or otherwise fund participants. A credit or investment institution shall pay the single contribution within one month after notification of the resolution to issue authorization or an activity license. A pension management company shall pay the single contribution within one month after registration of the pension fund rules by the Financial Supervision Authority. An insurer shall pay the single contribution within one month after entering into the first insurance contract for a mandatory funded pension. The quarterly contributions are calculated on the basis of guaranteed deposits, different investment services, the net asset value of the pension funds and premiums from insurance contracts for a mandatory funded pension paid to the insurer.

From the contributions received the Guarantee Fund has established the following pools of assets – sectoral funds: 1) the Deposit Guarantee Sectoral Fund; 2) the Investor Protection Sectoral Fund; 3) the Pension Protection Sectoral Fund and 4) the Pension Contracts Sectoral Fund.

The following table provides an overview of the receipt of contributions to the sectoral funds in the years 2013 and 2012, and of the number of fund participants:

Sectoral funds	Fund participants	Number at the end of year		Contributions thousands of euros	
		2013	2012	2013	2012
Deposit Guarantee Sectoral Fund	credit institutions	8	8	16,191.4	15,059.5
Investor Protection Sectoral Fund	credit institutions	7	7	63.3	56.6
	investment institutions	4	5	11.1	8.8
	fund management companies	11	11	6.1	6.1
Pension Protection Sectoral Fund	pension management companies	6	6	629.5	503.5
Pension Contracts Sectoral Fund	Life insurance companies	3	3	3.5	2.5
Total		39	40	16,904.9	15,636.9

Compared to 2012, the quarterly contributions to the Deposit Guarantee Sectoral Fund in 2013 were somewhat higher due to the higher volume of eligible deposits.

Establishment of quarterly contribution rates of sectoral funds

The Guarantee Fund Act provides for the maximum rates of quarterly contribution of the sectoral funds and grants the Supervisory Board of the Fund the right to establish lower rates for the contributions, if necessary, taking into account primarily the market situation of the financial sector, the objective regarding the volume of the sectoral fund and compensation limits provided for in the Guarantee Fund Act. The rates of the contributions are annually reviewed by the Supervisory Board of the Fund.

The rates of quarterly contributions payable to sectoral funds by the fund participants have been established by the Supervisory Board of the Fund as follows:

Year	Deposit Guarantee Sectoral Fund	Investor Protection Sectoral Fund			Pension Protection Sectoral Fund	Pension Contracts Sectoral Fund
		Brokerage services	Securities portfolio management	Safekeeping of securities		
<i>Maximum limits of rates²</i>	<i>0,125%</i>	<i>0,1%</i>	<i>0,075%</i>	<i>0,01%</i>	<i>0,1%</i>	<i>0,05%</i>
2002	0,1%	0,05%	0,02%	0,005%	0,02%	-
2003	0,07%	0,05%	0,02%	0,005%	0,02%	-
2004	0,07%	0,025%	0,01%	0,0025%	0,01%	-
2005	0,07%	0,020%	0,008%	0,0020%	0,01%	-
2006	0,09%	0,020%	0,008%	0,0020%	0,01%	-
2007	0,125%	-	-	-	0,01%	-
2008	0,125%	0,012%	0,0048%	0,0012%	0,01%	-
2009	0,0008%	0,012%	0,0048%	0,0012%	0,01%	0,05%
2010	0,025%	0,012%	0,0048%	0,0012%	0,01%	0,05%
2011	0,047%	0,012%	0,0048%	0,0012%	0,01%	0,05%
2012	0,047%	0,012%	0,0048%	0,0012%	0,01%	0,05%
2013	0,047%	0,012%	0,0048%	0,0012%	0,01%	0,05%
2014	0,030%	0,012%	0,0048%	0,0012%	0,01%	0,05%

On November 2013 the Supervisory Board of the Fund reviewed the ruling rates of the quarterly contributions payable to the Deposit Guarantee Sectoral Fund, the Investor Protection Sectoral Fund, the Pension Protection Sectoral Fund and the Pension Contracts Sectoral Fund.

The rate of the quarterly contribution payable to the Deposit Guarantee Sectoral Fund was changed to the level of 0,030% instead of 0,047% by the Supervisory Board. The introduced quarterly contribution rate 0,030% effective from the second quarter of 2014 supports the prolonged view of the Fund on the financing of the Deposit Guarantee Sectoral Fund and is set for maintaining the target level of 2,0%.

The contribution rates for volumes of different investment services established by the Supervisory Board remained unchanged due to the disputable increase/diminishing trend of volumes of investment services which form the bases for contributions in near future. Also the target regarding the volume of the Investor Protection Sectoral Fund on the level of 2.0 million euros and the deadline by 2020 for achievement the target, both established in November 2007, remained unchanged³.

The rate of the quarterly contribution payable to the Pension Protection Sectoral Fund remained unchanged. The deadline for achieving the 0,19% target level of the Pension Protection Sectoral Fund remained 2015. The 0,19% target level regarding the volume of the Pension Protection Sectoral Fund to the net asset value of mandatory pension funds was established in 2009. Upon establishing the rate of the quarterly contribution payable to the Pension Protection Sectoral Fund the Supervisory Board took into account primarily the target level of the sectoral fund and the forecast of increase of the assets of

² Maximum limits of quarterly contribution rates for sectoral funds established by the Guarantee Fund Act.

³ On 19 November 2007 the amendment of the Guarantee Fund Act entered into force which increased the value of the assets of the Investor Protection Sectoral Fund up to 2,0 million euros.

pension funds within the following years and the terms of compensation scheme for any damage caused by a pension management company to unit holders prescribed by the Guarantee Fund Act.

The rate of the quarterly contribution payable to the Pension Contracts Sectoral Fund remained unchanged. The Guarantee Fund Act establishes the transition period for insurers, when the maximum rate of a quarterly contribution is lower. According to the Guarantee Fund Act the maximum rate of 0,05% shall be used up to January 1, 2019 for calculating the contributions from the amount of insurance contracts collected by the insurer during the quarter preceding payment of the contribution.

Results of the Fund's operations and investment of Fund's assets

The net result on the economic activities of the Fund in the years 2013 and 2012 was as follows:

	thousands of euros		
	2013	2012	Change
Contributions from fund participants	16,904.9	15,636.9	1,268.0
Financial income/ expenses	-104.1	-83.9	-20.2
Other operating income	0.0	0.2	-0.2
Administrative expenses	-157.9	-140.7	-17.2
Net result of the Fund	16,642.9	15,412.5	1,230.4

In 2013 the Fund's net operating result was 16.6 million euros, which is 1.2 million euros more than in 2012. The main reason was an increase of the contributions paid to the Deposit Guarantee Sectoral Fund. Investment performance decrease was due to the yields fall of euro area government bonds suitable for Fund.

For investment purposes the Fund has opened a securities account and a current account in State Street Bank. In terms of an agreement, Eesti Pank invests the Fund's assets in accordance with the applicable restrictions concerning the investment of the Fund's assets.

Upon investing assets of the Fund the objective of achieving the best possible profitability within the framework of maintenance of the value of the assets as well as the liquidity and established restrictions of the assets is followed. The main risks related to the investment of the assets of the Fund are the interest, credit and liquidity risks. On investment of Fund's assets no foreign exchange risk is taken.

The investment of the assets of the Fund and the management of the financial risks have been carried out according to the basis arising from the Guarantee Fund Act and pursuant to the general principles of investment of assets, restrictions on the investments and procedure for reporting approved by the Supervisory Board.

In the beginning of 2013 the Fund's assets had been invested in short-term bonds of the governments of euro area countries, whereby the lowest long-term credit rating of the issuer of a bond had to be at least A- (Standard & Poor's, Fitch) or A3 (Moody's). The total share of such bonds which issuers have the rating AAA/Aaa had to be at least 50% of the investment portfolio. The percentage of any issuer in the investment portfolio could not exceed 35% and the share of an issuer whose rating is lower than AA-/Aa3 could be up to 10%. The percentage of deposits in all credit institutions which long-term credit rating was supposed to be at least AA-/Aa3 must not exceed 10% from the volume of investment portfolio. The redemption date of an instrument in the portfolio which issuers

have the credit rating AA+/Aa1 or higher, could not exceed seven (7) months. The redemption date of all the other instruments in the portfolio could not exceed four (4) months.

On November and December 2013 the Supervisory Board of the Fund adjusted the restrictions on investments of Fund's assets in connection with downgrading of credit ratings of France and Netherlands. The seven months redemption date restriction on credit rating was reduced from AA+/Aa1 to AA-/Aa3. The 50% share requirement of bonds which issuers have the rating AAA/Aaa and the 10% share requirement of one issuer whose rating is lower than AA-/Aa3 regarding the volume of investment portfolio were removed. Upon investing the assets of the Fund, the lowest credit rating set by a rating agency shall be used as the basis for evaluation of the financial position of the counterparty to the transaction. The average established duration of the investment portfolio of the Fund is up to 0.25 years and the deviation thereof is 0.25 years.

At the end of 2013 the assets of the Fund had been invested only in the bonds of the central governments of the euro area, which complied with the restrictions established by the Supervisory Board.

The following table provides an overview of the investment result of the Fund:

	thousands of euros	
Investments as at 31 December	2013	2012
Investments in market value	192,025.1	175,386.8
Net investment income/expenses	-104.1	-83.9
<i>Value adjustments of bonds and interest income</i>	58.9	66.9
<i>Service fees</i>	-163.0	-150.7
Rate of interest return of investments (per annum)	0,03%	0,04%
Foreign exchange structure of investments		
<i>EUR</i>	100,0%	100,0%

In 2013 the profitability of Fund's investments decreased from 0,04% to 0,03% in comparison with 2012. In connection with the increase of investments the service fees also increased somewhat. As a result thereof the Fund's investment result decreased by EUR 0,02 million.

Informing the public about the Fund's activities

From June 1, 2011 updated and trilingual Fund's website was opened at <http://www.tf.ee>. The site provides an overview of the Fund's policies, the legislation underlying the Fund's operation and the Fund's economic activities. The website gives information about the protection of funds deposited and invested by clients of credit and investment institutions, unit-holders of mandatory pension funds and policyholders which have entered into an insurance contract for a mandatory funded pension of which the Fund has, on a regular basis, informed the consumers of financial services through the media. Furthermore, the web site gives information on the deposit guarantee schemes of other countries. The web site information about the compensation level for depositors of Estonian branches of European Union Member States credit institutions are updated regularly.

International co-operation

In September 2004 the Guarantee Fund joined the European Forum of Deposit Insurers (EFDI). EFDI is a voluntary association of deposit insurers to promote the exchange of ideas and experiences of deposit protection in Europe. EFDI is established with the aim of contributing to the stability of financial systems by promoting European co-operation in the field of deposit insurance of different countries.

EFDI as an organisation and its members are involved as experts in the activities of the European Commission Working Group on deposit guarantee schemes reviewing and analysing the Directive 94/19EC and 2009/14EC and their amendments. EFDI as an organisation and its members also participate in the revision process of Investor Protection Directive 97/9/EC.

EFDI as an organisation has favored also co-operation between the deposit guarantee schemes of European Union Member States and other states. Contacts between the deposit insurance schemes of the EFDI member states are increased and information about the legal acts which regulate the guarantee of deposits as well as other practical activities issues of the schemes are changed. In March 2011 the Guarantee Fund joined the cooperation agreement agreed by members of EFDI which provides a framework for cooperation of guarantee schemes not excluding further bilateral cooperation agreements.

On September 2013 the EFDI annual meeting with workshop took place in Rome where different presentations were given on topic of “Roles of deposit and investor protection schemes and crisis resolution fund in granting consumer protection and financial stability”. Meetings of different EFDI working groups took place in Berlin, Helsinki, London and Paris.

Main objectives for 2014

In June 2014 the Supervisory Board approved the strategy of the Fund for 2014-2016. The main strategic goals to be focused on by the Fund in the coming years are:

1. Enlarging the Fund’s operational capability in a crisis situation.
2. The optimal size of the Fund’s assets (sectoral funds assets) which guarantee the fast payment of compensations and supporting amounts.
3. The faster access to their funds deposited for depositors in the compensation case.
4. The awareness of depositors and investors about protection of deposits and investments and conditions for compensation.
5. Cross-border cooperation with deposit guarantee schemes of other European Union Member States.

The main strategic goals of Fund’s activities derived from the objective of the Fund constituted by the Guarantee Fund Act and from the surrounding environment for Fund’s operation. Taking into account the main strategic goals approved, the Fund outlines its main activities for following years.

The Fund analyses the compliance of the present status of Guarantee Fund to the Core Principles for Effective Deposit Insurance Systems published by the Basel Committee on Banking Supervision and the International Association of Deposit Insurers in 2009 and the rationality of probable changes together with financial system safety net institutions.

The Fund analyses the usage of the Deposit Guarantee Sectoral Fund’s financial means for financing crisis resolution and participates in the reviewing process of the crises resolution fund location options, including in working out the medium term target level

for the crisis resolution fund, which derive from Estonia's probable national decisions according to the possible options of deposit guarantee and crisis resolution directives.

The Fund is participating in compiling and introducing the risk based contributions calculation model based on covered deposits for Deposit Guarantee Sectoral Fund.

The Fund analyses the appropriateness of the rates of quarterly contributions of sectoral funds and, where necessary, sets new rates taking into account the target level of a sectoral fund, the structure of the financial sector, the volume of deposits, investments and mandatory pension funds, the amount of premiums of the insurance contracts for a mandatory funded pension and the compensation limits for guaranteed deposits and investments and for damages caused to the unit-holders of pension funds.

Investment of the Fund's assets will continue on the basis of the agreement between the Fund and Eesti Pank.

In cooperation with safety net institutions of financial sector, financial market participants and their professional associations the Fund informs the users of financial services about the protection of deposits and investments and compensation conditions using web sites and other options. The Fund will continue its website improvement, considering the needs of different consumers and the opportunities arising from use of the website upgrade.

The Fund will continue with the updating and renewal of the code of practice governing the process of compensating for deposits and investments and for damages caused to the unit-holders of pension funds and supporting the transition of the insurance contracts for a mandatory funded pension in order to ensure expeditious and timely payment of compensations and supporting process, and the co-operation and information exchange with other institutions involved in the compensation and supporting process. Thereby the Fund analyses the compliance and the ability of its resources including information technology for fast pay-out of deposits. In accordance with the Guarantee Fund Act, as of 2011 deposits are compensated within 20 working days, which is a much shorter term than the former three months term, and which according to planned changes in the new deposit guarantee directive is reduced gradually to 7 working days in the future.

The Fund cooperates with the guarantee schemes of European Union Member States. In case of need the Fund concludes cooperation agreements with these schemes. These agreements guarantee the better awareness of depositors of the Estonian branch of a Member State's credit institution as well as the depositors of the branches of Estonian credit institutions operating in the Member States about the terms and conditions for guarantee and compensation of deposits and investments.

The Fund is participating together with the representatives of Eesti Pank and Ministry of Finance in the initiative of European Commission on reviewing and amendment process of deposit and investment guarantee Directives 94/19EC, 2009/14 EC, 97/14EC and in resolving the practical matters derived from the directives.

Furthermore, the Fund will continue co-operation with the Ministry of Finance, Eesti Pank, the Financial Supervision Authority and the Banking Association in the area of implementing the Guarantee Fund Act and its amendments.

Financial statements

Statement of the Director

The Director acknowledges his responsibility for the preparation and accuracy of the financial statements of the Guarantee Fund for 2013 as set out on pages 11 to 25 and confirms that to the best of his knowledge:

- the accounting policies applied in the preparation of the financial statements are in accordance with Guarantee Fund Act and the accounting principles generally accepted in Estonia;
- the financial statements give a true and fair view of the financial position, the operating result and the cash-flows of the Guarantee Fund and sectoral funds;
- the Guarantee Fund as a legal person in public law is a going concern.

Notes to the financial statements

Note 1. Accounting policies used for preparing the financial statements

Basis of preparation of the financial statements

The financial statements of the Fund have been prepared in accordance with the Guarantee Fund Act, the Accounting Act of the Republic of Estonia and generally accepted accounting principles of Estonia. The content and the procedure for preparation of the annual report of the Fund is established by regulation no. 64 of the Minister of Finance of 28 April 2003. Instead of the principal statement included in the financial statements – the profit and loss account – the Fund uses the statement of changes in the Fund and in the sectoral funds established by the regulation of the Minister of Finance.

These financial statements have been prepared under the historical cost convention, except as disclosed in the accounting policies below.

The financial statements have been prepared in euros.

Assets of the Guarantee Fund

The assets of the Guarantee Fund are divided into the rights to be exercised and obligations to be performed out of each sectoral fund. Separate accounts are kept for each sectoral fund.

From the contributions received by it the Fund establishes the following sectoral funds:

1. the Deposit Guarantee Sectoral Fund;
2. the Investor Protection Sectoral Fund;
3. the Pension Protection Sectoral Fund;
4. the Pension Contracts Sectoral Fund.

Cash and cash equivalents

Cash and cash equivalents are recorded on the balance sheet item “Cash at bank and in hand” at amortised cost (see Note 2). Cash and cash equivalents include balances of current accounts and accounts used for paying compensations as well as short-term time deposit accounts used for depositing unpaid compensations. In case of need these time deposits are terminable and disposable whereby they are recognized as cash and cash equivalents in the Cash-flow statement.

According to the Guarantee Fund Act, accounts for the collecting of contributions to the Fund, the payment of compensation and other settlements related to the Fund’s activities may be opened with one or more credit institutions operating in Estonia.

For the collecting of contributions and for settlements related to its activities the Fund has opened current accounts in Swedbank and SEB Pank. The contributions paid to the Fund’s current accounts by the fund participants must, through the Fund’s current account in Eesti Pank, be invested within three days of their receipt. The balance of the Fund’s current accounts may not exceed the amount required for the current activity of the Fund.

For the investment purposes of its assets the Fund may open accounts with credit institutions of OECD countries having a credit rating determined by an internationally recognized rating agency, which is designated by a decision of the Supervisory Board of

the Fund. For investment purposes the Fund has opened securities and current accounts in State Street Bank.

Short-term financial investments

The Guarantee Fund Act provides that the Fund may invest its assets in bonds or other debt instruments listed on a stock exchange operating in an OECD country and deposits of credit institutions of OECD countries having a credit rating determined by an internationally recognized rating agency, which is designated by the Supervisory Board of the Fund. The Fund may invest its assets directly or through an asset manager. The manager of the Fund's assets is Eesti Pank, which exercises this function under the relevant agreement.

The Fund's assets are invested for a short term so that the obligation to guarantee deposits, investments and the units of pension funds within the time limit laid down by the law could be complied with, where necessary. Short-term investments comprise of bonds with fixed and floating interest rates acquired for trading purpose, time deposits expected to be disposed of within the next 12 months after the balance sheet date and reverse repurchase transactions (see Note 3). The gains and losses of the short term financial investments are recorded in the Statement of changes in the Fund and in the sectoral funds.

The bonds acquired for the purpose of trading shall initially be recognized at cost and further shall be measured at their fair values in the balance sheet. Transaction costs are not included in the cost of instruments acquired for the purpose of trading. The assessment of the fair value is based on the market value of the financial investment on the balance sheet date on an active market. The gains and losses arising from the revaluation of the bonds measured at fair value shall be recognized under the entry „Value adjustments of bonds“ of the Statement of changes in the Fund and in the sectoral funds (see Note 9).

The time deposits are recorded in the balance sheet at amortised cost because the Fund plans to hold them until the term specified in the contract and they are not listed in the active market. The income from time deposits are recorded under the entry „Interest income“ of the Statement of changes in the Fund and in the sectoral funds (see Note 9).

Reverse repurchase transactions (purchase/resale transactions) are recorded as collateralised loans at amortised cost. Revenue and expenditure from reverse repurchase transactions are recorded under the entry „Interest income“ of the Statement of changes in the Fund and in the sectoral funds (see Note 9).

Purchases and sales of financial assets are recorded at settlement date. Accounting for the purchase and sale of financial assets measured at fair value the change in the value of acquired assets that occurred between the trade date and the settlement date shall be recognized as net income under the item „Value adjustments of bonds“ of the Statement of changes in the Fund and in the sectoral funds (see Note 9).

Financial liabilities

Financial liabilities (e.g. supplier payables, borrowings, accrued expenses, bonds issued and other short and long-term borrowings) shall initially be recognized at cost which includes all transaction costs directly attributable to the acquisition of financial liabilities. The financial liabilities shall be subsequently measured at amortised cost.

The amortised cost of short-term financial liabilities generally equals their nominal value, therefore short-term financial liabilities are carried in the balance sheet in their net realisable value. For calculating the amortised cost of long-term financial liabilities they are initially recognized at the fair value of the consideration payable (minus transaction costs), by determining interest expense on the liabilities in the following periods using the effective interest rate method.

Financial liability is classified into current liability if its term for payment is within the next 12 months after the balance sheet date; or the Fund has no unconditional right to postpone the payment of liability more than 12 months after the balance sheet date.

Recognition of transactions and balance sheet items denominated in foreign currency

Transactions in foreign currency are recorded in the financial statements on the basis of the official exchange rate of the European Central Bank applicable on the transaction date. On the balance sheet the claims and liabilities denominated in foreign currency have been revalued at the official exchange rate of the European Central Bank applicable on the balance sheet date. The foreign exchange revaluation gains and losses shall be reported in the entry "Financial income" or "Financial expenses," respectively, of the Statement of changes in the Fund and in the sectoral funds.

Revenue and expenditure

The Fund's revenue includes quarterly contributions from fund participants, single contributions payable by new fund participants upon joining the guarantee scheme, the income from the investment of the Fund's assets, the amounts paid to the Fund by fund participants under the right of claim and within the limits of compensation and supporting amounts paid to entitled persons (depositors, investors, unit-holders of mandatory pension funds) and insurers, and other operating income. The Fund's expenditure includes compensation payable to entitled persons, costs supporting the transfer of insurance portfolio of insurance contracts for a mandatory funded pension from one insurer to another one, expenses related to the investment of the Fund's assets, other operating expenses and administrative expenditure. The amounts received from fund participants under the right of claim are recorded in the accounts on the cash basis and the rest of the revenue and expenditure is recorded on the accrual basis in the Statement of changes in the Fund and in the sectoral funds. The profit and loss regarding the change of the market value and on the disposal of the bonds contained in the short-term financial investments shall be reported as a net result in the Statement of changes in the Fund and in the sectoral funds under the item "Value adjustments of bonds" (see Note 9).

Outstanding accrued interest of time deposits and reverse repurchase transactions are recorded under the balance sheet item "Other short-term receivables" and in the Statement of changes in the Fund and in the sectoral funds under the item "Interest income" (see Note 9).

Principles of allocating revenue and expenditure between sectoral funds

The assets of the Fund are divided into the rights to be exercised and obligations to be performed out of each sectoral fund. The Fund keeps separate accounts for the assets and the direct and indirect revenue and expenditure of each sectoral fund. The principles of allocating the different revenue and expenditure items and their direct and indirect allocation between the sectoral funds are disclosed by the Fund in the accounting principles and the notes to the Statement of changes in the Fund and in the sectoral funds (see Note 14).

The principles of allocating revenue and expenditure items between the sectoral funds are as set out below:

Designation of the revenue or expenditure item in the statement of changes in the Fund and in the sectoral funds	Note	Description of allocation principle
Contributions from fund participants	8	Contributions from fund participants are allocated between the sectoral funds directly.
Granted Compensations		Granted compensations and payable amounts for supporting the transfer of insurance portfolio are allocated between the sectoral funds directly. Unpaid compensations due to the expiry of the right to file a claim against the Fund are allocated between the sectoral funds directly.
Receipts on the basis of the right of claim		Receipts on the basis of the right of claim are allocated between the sectoral funds directly.
Financial income	9	The interest earned on compensation payment accounts and time deposits is allocated between the sectoral funds directly. The interest earned on current accounts is allocated between the sectoral funds proportionally to the contributions to sectoral funds received during the accounting period. The net profit of revaluation and on the disposal of bonds and interest earned on financial investments is allocated between the sectoral funds proportionally to the average size of the sectoral funds during the accounting period. Foreign exchange gains are allocated only to the Deposit Guarantee Sectoral Fund directly.
Financial expenses	10	The service fees on financial investments are allocated between the sectoral funds proportionally to the average size of the sectoral funds during the accounting period. Foreign exchange losses are allocated only to the Deposit Guarantee Sectoral Fund directly.
Other operating income	11	Receipts of fines on overdue payments of contributions are allocated between the sectoral funds directly. Other operating income are allocated between the sectoral funds proportionally to the average size of the sectoral funds during the accounting period.
Other operating expenses		Other operating expenses are allocated between the sectoral funds directly.
Administrative expenses	12, 13	Administrative expenses are allocated between the sectoral funds proportionally to the average size of the sectoral funds during the accounting period.

In every subsequent year the usefulness of applying the principles of indirect allocation of revenue and expenditure between the sectoral funds will be examined.

Contingent assets

Upon payment of compensation to depositors, investors or the unit-holders of pension funds, and also upon supporting the transfer of insurance portfolio of insurance contracts for a mandatory funded pension from one insurer to another one, the right of claim against the fund participant shall be transferred in the same amount from the beneficiaries of compensations and supporting costs to the Fund. In the financial statements the right of claim is treated as a contingent asset, since it is not possible to assess the collectability of the receivable with sufficient reliability. In case the fund participant pays the funds to cover a claim submitted, these amounts shall be reported as income of the respective sectoral fund on the cash basis in the entry "Receipts on the basis of the right of claim" in the Statement of changes in the Fund and in the sectoral funds, simultaneously adjusting the contingent assets.

Unpaid compensations

Compensations, which have not been paid to depositors, investors or the unit-holders of pension funds as of the balance sheet date and which have to be paid on their request, also the payable amounts supporting the transfer of insurance portfolio of insurance contracts for a mandatory funded pension from one insurer to another one is reported in the balance sheet as a liability.

The payment of compensation for guaranteed deposits, investments or pension fund units must be completed within the time limits set by the Guarantee Fund Act during 20 working days, six months and two months respectively. The Supervisory Board of the Fund may extend the term for payment of compensation under extraordinary circumstances and with good reason. Compensation not paid within these time limits is deposited and the beneficiary may file a claim against the Fund in order to receive compensation during five years. The Fund shall pay the amount for supporting the transfer of insurance portfolio from the Pension Contracts Sectoral Fund not later than one month after the date of receipt of the notification from the Financial Supervision Authority about the insurer - receiver insurance portfolio of insurance contracts for a mandatory funded pension. The Financial Supervision Authority may extend the term for payment with good reason on the basis of an application of the Fund.

Tangible assets

Tangible assets are assets having an acquisition cost of over 2 000 euros and an estimated useful life of over one year. Tangible assets shall initially be recognized at cost which comprises its purchase price and any costs directly attributable to its acquisition that are necessary for bringing the asset to its operating condition and location. Tangible assets have been recorded on the balance sheet at their acquisition cost less accumulated depreciation and any accumulated impairment losses.

Tangible assets are depreciated on a straight-line basis in accordance with their estimated useful life as follows:

Group of fixed assets	Annual depreciation rates
Machinery, equipment, inventory	20%-30%
Computer hardware	30%-40%
Intangible assets	30%-40%

Depreciation commences from the month of implementation of the tangible assets and depreciation is terminated if the residual value of an asset is higher than its carrying

amount, until an asset is retired from active use. At each balance sheet date, the appropriateness of the depreciation rates, depreciation methods and estimated residual values applied shall be assessed.

If the recoverable amount of the asset (which is the higher of the two indicators – an asset's net selling price or its value in use) is lower than its carrying amount, the items of tangible assets have been written down to their recoverable amount.

Finance and operating leases

Leases of assets where the company acquires substantially all the risks and rewards of ownership are classified as finance leases. Other leases are classified as operating leases. Operating lease payments are recognized in the Statement of changes in the Fund and in the sectoral funds as expense over the rental period on straight line basis (see Note 13). The Fund uses operating lease for renting working premises.

Note 2. Cash at bank and in hand

	31.12.2013	31.12.2012
In Estonian credit institutions	69,008	58,361

Note 15. Transactions with related parties

In the preparation of the Fund's financial statements the related parties include the Director of the Fund and members of the Supervisory Board. The parties are considered related if one of the parties exercises control over the other or has significant influence on the business decisions of the other party. According to the allocation of functions in the Guarantee Fund Act the opportunity is prevented that these persons mentioned above can exercise sole control over the Fund and they have also no substantial individual influence on the business decisions of the Fund. Remuneration paid to the Director of the Fund and members of the Supervisory Board during the accounting period is indicated in Note 12. There have been no other transactions with related parties.

INDEPENDENT CERTIFIED AUDITOR'S REPORT

To the Supervisory Board of Guarantee Fund:

We have audited the accompanying financial statements of Guarantee Fund, which comprise the statement of financial position as at 31 December 2013, and the statement of changes in the fund and in the sectoral funds and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management Board's Responsibility for the Financial Statements

Management Board is responsible for the preparation and fair presentation of these financial statements in accordance with Estonian Accounting Act and Guarantee Fund Act and according to regulation no. 64 of the Minister of Finance "Requirements to the content and preparation of financial statements of Guarantee Fund", and for such internal control as the Management Board determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Certified Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing (Estonia). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the certified auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the certified auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Management Board, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Guarantee Fund as at 31 December 2013, and its financial performance and its cash flows for the year then ended in accordance with Estonian Accounting Act, Guarantee Fund Act and regulation no. 64 of the Minister of Finance "Requirements to the content and preparation of financial statements of Guarantee Fund".
